

## Software Developer

The Property Software Group is the UK's largest supplier of software solutions to the estate agency sector. Our vision is to allow agents to make full use of all of their business-critical systems online, anywhere, at any time.

We do this by making our state-of-the-art software intuitive and easy to use, yet powerful & flexible to meet the needs of estate agents of any size.

We are currently looking for a C# Software Developer to work within our Data and Web Services team. You will be responsible for the development and maintenance of core web and data processing services. Working with the Head of DWS, you will be delivering solutions required by the business.

Office location: TBC
